

MOUNTAIN VIEW SCHOOL DIVISION

Academic Excellence and Cultural Integration in a Safe and Caring Learning Environment

International Student Program

POWERED BY

COSMOPOLITAN
EDUCATION

WELCOME

Mountain View School Division (MVSD) consists of seven communities located in the heart of Manitoba's Parkland Region, which is known for its abundance of natural spaces and beautiful scenery between Riding Mountain National Park and Duck Mountain Provincial Park.

We take great pride in offering high quality educational programming within a safe, caring environment at each of our sixteen schools. International students have a variety of options to choose from: to study and receive credit for courses taken; to graduate with a Grade 12 Diploma; or to participate in a short-term cultural and language development program. To ensure international students integrate successfully into regular classes, the Division

offers various supports such as English as an additional language, access to school counsellors, and program staff who remain closely connected with students, schools and homestay families. Students may complement their academic studies with a variety of school and community-based activities. To fully experience family life in Canada and become immersed in the English language, all students live with one of our carefully selected homestay families.

Public Liaison, MVSD

LOCATION

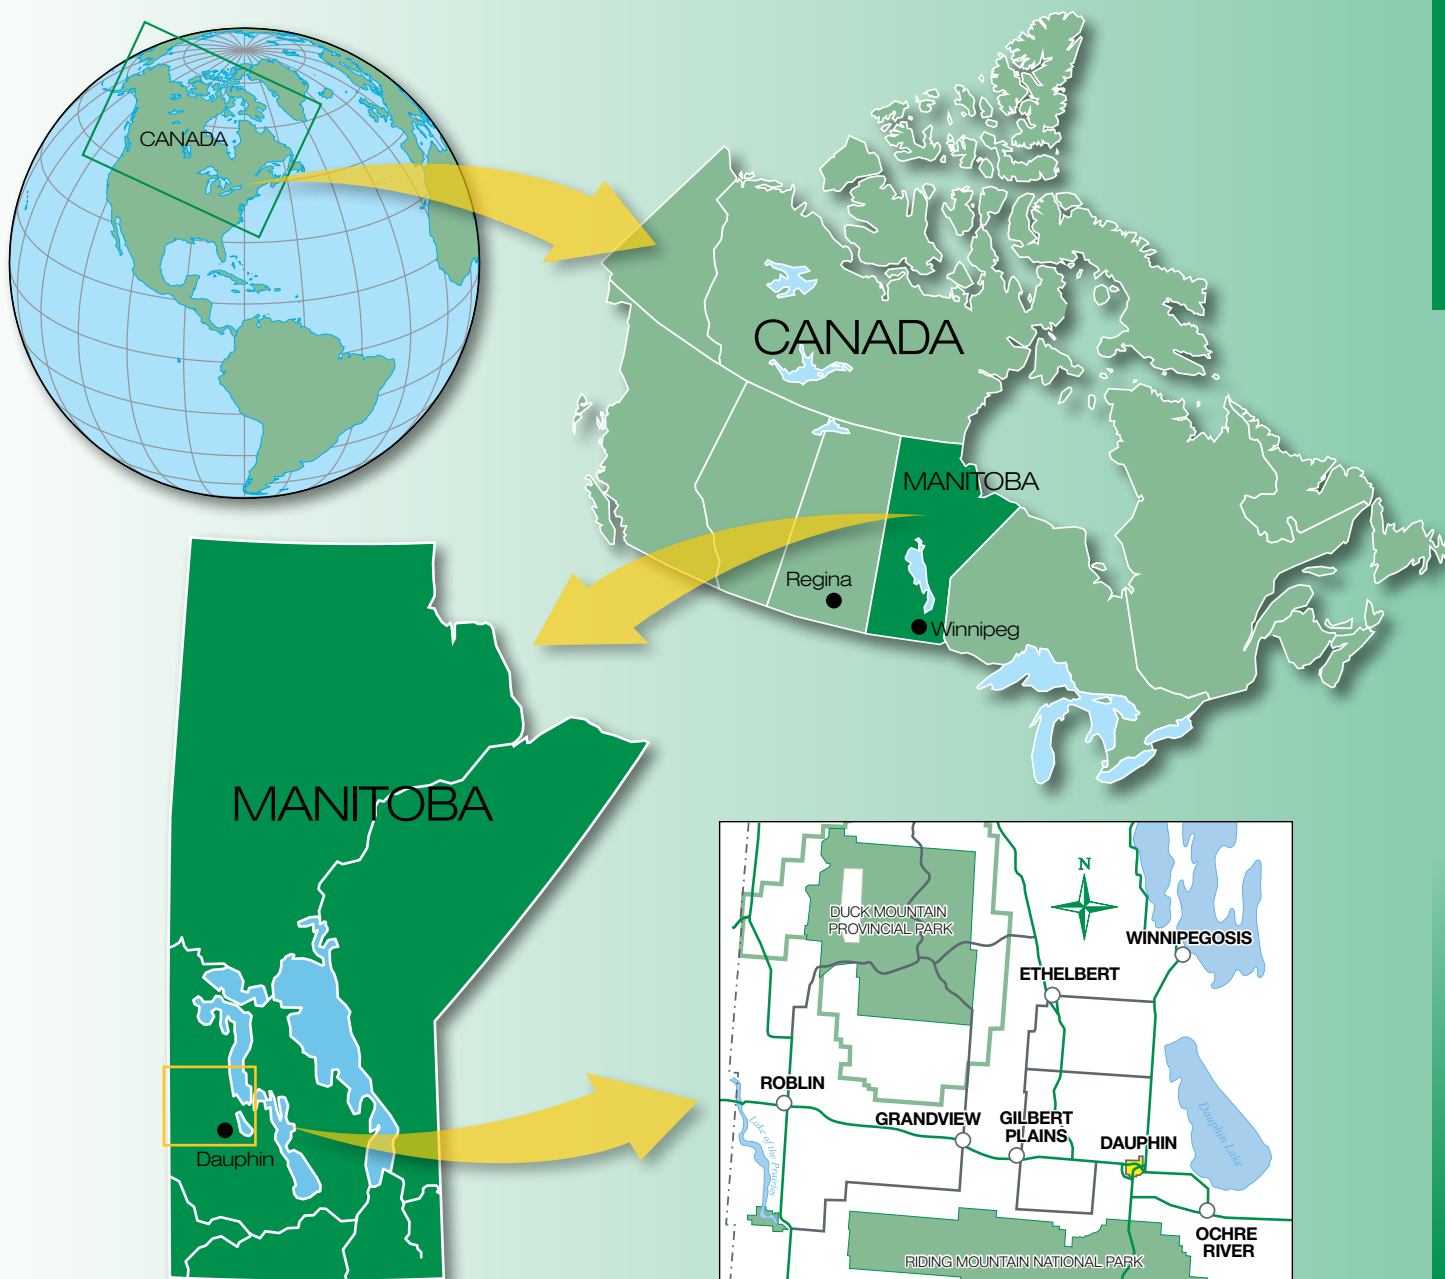

Mountain View School Division is a geographically large rural school division located in the heart of the Manitoba prairies. Here one can find pristine lakes; cool, refreshing streams; rolling grasslands; and sprawling forests. The division is nestled between two prairie mountain ranges – the Riding Mountains to the south and the Duck Mountains to the north.

Mountain View School Division has a diverse and comprehensive public education system with an annual enrolment of approximately 3,250 students. The division provides Kindergarten to Grade 12 educational programming in sixteen schools located in seven separate communities: Dauphin, Roblin, Winnipegosis, Grandview, Gilbert Plains, Ethelbert, and Ochre River. Due to the large geographical

nature of the division, approximately 50% of the students are transported on division buses, to their local community school.

Mountain View School Division has five Kindergarten to Grade 6 schools, four Kindergarten to Grade 8 schools, two Kindergarten to Grade 12 schools, one Grade 7 and Grade 8 school, and four Grade 9 to Grade 12 schools. The largest high school, Dauphin Regional Comprehensive Secondary School, offers a full slate of academic and vocational programs. French immersion and Ukrainian bilingual programs are offered at the Kindergarten – Grade 8 level.

Each secondary and middle school has an extensive extra-curricular program where students can participate in a variety of activities, and divisional tournaments are held throughout the year to highlight the sports program. To complement the athletics program, fine arts and music programs are offered throughout the division.

PROGRAMS

Mountain View School Division International Student Program gives students from outside of Canada the opportunity to study at a local school; to graduate with a Grade 12 Diploma; or to participate in a short-term cultural and academic integration program.

The International Student Program offers programming for students in Grades 5-12 wishing to study in Canada for a short-term (3 months), for a longer term (5 months and greater), or for a short-term orientation program of four weeks.

Although the program is designed for students in Grades 5-12, Mountain View School Division will also accept some early years (Kindergarten – Grade 4) student applications. The acceptance of the early years application is dependent

upon the availability of the student's parents, or an immediate family member (grandparent, aunt or uncle) to accompany the child to Canada and reside in the school division for the duration of the child's program. Additionally, early years placement is limited to availability of appropriate programs and grade level.

Any exceptions to program offerings and age requirements would require written approval of the Chief Executive Officer.

LONG-TERM PROGRAM

The long-term program is a single semester (September – January or February – June), or a full school year (September to June). International students are integrated into regular classes with local students and are able to gain credit for courses completed. The student may choose a program that leads to graduation with a Manitoba high school diploma.

For those students requiring language assistance, our English as an additional language program, combined with special tutorial assistance, helps prepare students for academic studies in fully integrated classes.

CLASSROOM INTEGRATION

Grade 5 – 8 Classroom Integration. The aim of the middle years long-term program is to provide a friendly and welcoming English-rich environment for the international students. The focus is on language development and the students' social development is a primary consideration with integration into an age appropriate classroom. Students

learn English through participation in a regular middle years classroom with EAL support, as needed. Students will do as much of the regular classroom work as they are capable of, based on their language ability.

Grade 9 – 12 Classroom Integration. The high school program provides a friendly and welcoming English-rich environment for international students. The international students are integrated in academic and elective classes, studying side-by-side with Canadian students. The students' timetable is designed to provide rapid language development in classes where students have a high chance of success, while also earning graduation credits. The school guidance counsellor, resource teacher and Coordinator of International Education work together with international students to provide individualized support to help students reach their goals and to ensure their well-being.

The range of available courses includes core academic subjects such as English, social studies, mathematics and all sciences, as well as a wide variety of electives including calculus, information technology, drama, concert band, ice hockey, culinary arts, auto body, power mechanics, graphic design, business education and much more. Students with strong academic achievement may study advanced placement courses. Availability of program options is dependent upon the international students' school placements.

International students graduating from high school in MVSD have the opportunity to continue their studies at one of the universities located in Manitoba or any university located in Canada. Such institutions regularly accept qualified international students into a variety of programs.

ACTIVITIES

Students have an opportunity to participate in a wide-range of activities. International students are also encouraged to participate in the many extra-curricular activities offered at MVSD schools. The involvement in extra-curricular activities, such as soccer, volleyball, photography, basketball, and curling provides students with ample opportunity to develop their intellectual, physical

and social skills. Weekdays involve school attendance and school related activities, while weekends allow students the opportunity to relax and enjoy time with their Canadian homestay families.

ASSESSMENT AND REPORTING

International students are assessed and evaluated in the same manner as local students. International students receive a division report card that provides parents and students with a summative report on credits completed and level of achievement in each course. MVSD has three reporting periods for early and middle years students (fall, winter and end of year) and four reporting periods for high school students (two reports for each semester).

SHORT-TERM PROGRAM

The short-term program in Middle Years is a three-month program designed to introduce international students to Canadian classrooms and to Canadian culture. The program focuses on language development and cultural awareness.

CLASSROOM INTEGRATION

International students are placed in MVSD schools offering middle years (Grades 5 – Grade 8) programming and school placement is dependent upon the student's English language ability, age of student and the school catchment area of the homestay family. International students participate in regular classes alongside local students, and are able to receive English as an additional language support, if required. Along with the academic component, international students have an opportunity to participate in a wide range of intra- and extra-curricular activities.

ACTIVITIES

In addition to school-based activities, the short term program offers a wide variety of activities that are unique to the geographical area of the region. Activity selection is determined by the season and availability of facilities and guides. Each activity is fully chaperoned and all necessary

equipment and instruction is provided, as outlined in MVSD Out-of-Class and Off-Site-Activities, Educational Tours, Field Trips and Athletic Trips Policy and procedures.

ASSESSMENT AND REPORTING

In the short-term program, students normally will not achieve academic credits, because a full academic school year, or one semester of a school year cannot be completed. Students who are participating in the program for at least three months have the potential to receive a regular term report card. The report may also include some classroom-based assessments and samples of work completed during the student's stay.

EXPLORER PROGRAM

The four-week Explorer Program is designed to provide international students with a brief introduction to

Canadian culture and Canadian classrooms with English as an additional language instruction. The Program is an opportunity to perfect English language skills and experience Canadian culture by participating in classroom activities and out-of-class activities.

International students receive English as an additional language classes to enhance English language development. Students have an opportunity to experience a Canadian classroom and are exposed to a variety of subjects, such as mathematics, science, social studies, physical education, fine arts, and technology. Student participation in the various activities that are available will further strengthen their English language skills.

PROGRAM STRUCTURE

The Explorer program is a stand-alone program facilitated by a certified teacher. A large component of the International student's day is focused on English as an additional language instruction, which is integrated within a variety of topics and subject areas. English language is developed through experiential learning activities and daily conversations. During the program, students have the opportunity to interact with Canadian students.

ACTIVITIES

The Explorer program has a large activity component. It is through the various activities that the students have ample opportunity to converse in English. Activity selection is determined by the season and availability of facilities and guides, and the activity is fully chaperoned with student safety as the number one priority. Students have an opportunity to participate in some of the following activities: exploring local attractions; snowshoeing; sledding; seasonal festivals; and cultural activities, such as bannock making, Ukrainian dance, pysanky, and making maple syrup candy.

ASSESSMENT AND REPORTING

Upon completion of the program, students receive a portfolio of work completed during the program, and a certificate of completion. An English language proficiency assessment may also be administered.

COMMUNITIES & SCHOOLS

DAUPHIN COMMUNITY

The city of Dauphin is the largest centre within Mountain View School Division. Dauphin is home to seven division schools. The largest high school, Dauphin Regional Comprehensive Secondary School is located in the city of Dauphin. For more information on what the City of Dauphin has to offer, please visit its website at www.dauphin.ca.

Dauphin Regional Comprehensive Secondary School 	Student Enrollment	675
	Grades	Grade 9 – Grade 12 English, and French as a second language

MIDDLE YEARS PROGRAM

In the Middle Years Program (Grades 5-8), students' course of study focuses on Language Arts, Math, Social Studies, Arts, and Physical Education/Health, with some options for Music, Home Economics, Industrial Arts and French.

HOMESTAY PROGRAM

POWERED BY
 COSMOPOLITAN
 EDUCATION

Mountain View School Division ensures that a high-quality accommodation is arranged in close proximity to school, and that all homestay families undergo a homestay orientation, training, Criminal Record Check and Child Abuse Registry Check.

The homestay program provides:

- Placement with an appropriate homestay family
- Three meals a day
- Bedroom with storage and place to study
- Homestay Manager monitoring of accommodation
- Access to telephone
- Access to Internet
- Access to laundry facilities

- Each international student will be provided with a key to their home and contact information for their homestay parents during working hours.

“Some of the highlights of our hosting experience were learning about each other's cultures... watching the girls experience all their Canadian “Firsts”. They brought such joy and life to our home with their excitement.”

– Adeline Pochinco & Roger Grestoni

IMPORTANT

- All homestay fees are to be paid in advance to Mountain View School Division. Mountain View School Division will disburse fees to homestay family.
- Homestay fees will not be pro-rated should an international student travel.
- Mountain View School Division International Student Program will strive to meet the individual needs of students when placing students.
- The homestay fee does not cover any extra-curricular school costs. Homestay families are expected to include the international student when they participate in local family outings and cover their expenses.

ACTIVITIES

In addition to school-based activities, a wide variety of activities that are unique to the geographical area of the region are available. Activity selection is determined by the season and availability of facilities and guides.

Each activity is fully chaperoned and all necessary equipment and instruction is provided, as outlined in MVSD Out-of-Class and Off-Site Activities, Educational Tours, Field Trips and Athletic Trips Policy and procedures.

International students have an opportunity to participate in some of the following activities:

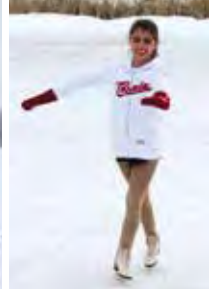

- Ski or snowboard lessons
- Snowmobile excursions
- Ice fishing
- Wilderness hikes
- Ice skating
- Boating
- Visits to Winnipeg or Regina attractions
- Visits to Riding Mountain National Park attractions, such as Moon Lake, Beach Ridges, Clear Lake, Beads Lake
- Visits to cultural heritage sites
- Sleigh rides
- Cross country skiing and snowshoeing
- Mountain biking
- Visits to local community attractions

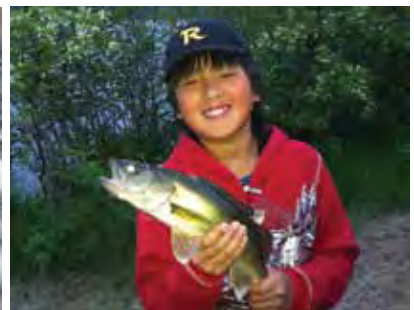

SEPTEMBER - DECEMBER

JANUARY - MARCH

APRIL - JUNE

HOW TO APPLY

1

Electronically complete an Application for Acceptance form. With your registration form you must include the following:

- Signed and dated Conditions/Permission Signature Sheet (see page 12 of the application form)
- Original or certified true copies of transcripts or school records from your last 2 years of school (translated into English) – not required for participants of the Explorer Program
- Recent photograph
- Copy of current passport
- Non-refundable application fee of \$100.00 (CAD) payable to Mountain View School Division

It is recommended that you make a photocopy of the application for your records prior to submission.

2

Send the completed application to:

International Student Program
Mountain View School Division
Box 715
Dauphin, Manitoba, Canada R7N 3B3

3

Acceptance into the International Student Program is determined by the Coordinator of International Student Programs.

Students who are accepted will receive initial notification, usually by email or fax. Once fees have been paid, an official Letter of Acceptance will be issued.

4

Once the Letter of Acceptance is received, immediately contact the nearest Citizenship and Immigration Canada office

and request a VISA application form for a Study Permit. As this process can exceed eight weeks, please apply early. Please ensure that your passport is current.

5

Further documentation, such as

Custodianship Declaration (if applicable), school placement, and homestay family information will be forwarded prior to arrival in Mountain View School Division.

6

The student will be met at the Winnipeg International Airport or the Regina Airport by member(s) of the International Student Program

staff and transported to Mountain View School Division.

7

International Student Orientation.

The student is introduced to his/her homestay family and community, and later introduced to the Principal and teachers at the school he/she is enrolled in. A timetable is established to meet the needs of the student.

HOW TO APPLY

“WHAT STUDENTS AND FAMILIES ARE SAYING ABOUT MVSD’S INTERNATIONAL STUDENT PROGRAM”

“Yaneth, my lovely wife and I want to express our gratitude to the good friends and our new Canadian family for the love and respect you welcomed our children, Mariana and Miguel. Twice we have been in this sacred land of Roblin, which celebrates 100 years of existence, full of good people, honest and hardworking, virtues that have taught our children by example and in classrooms. You will always be in our memories and our hearts. We come from a beautiful country called Colombia, where there will always be a Canadian flag hoisted as a testimony of these two years. What an honor to have been part of you.”

— Fernando Adolfo Pareja Reinemer and family, Colombia

“Mountain View School Division tried to make my high school life successful and they did give me a good impression about Canada.”

— Woo Soo Been, South Korea, MVSD ISP Student, 2011 - 2012

“Mountain View School Division provides good schools that are full of good teachers. It made a good circumstance where I can study well.”

— Jung TaeWon, South Korea, MVSD ISP Student, 2011 - 2012

“From this experience, I have gained mostly maturity, language improvement, social skills, confidence, friends, lots of knowledge.”

— Jose Bello Romero, Colombia, MVSD ISP Student, 2012 - 2013

WHY MOUNTAIN VIEW SCHOOL DIVISION?

- Affordable education
- Warm, caring, friendly and safe learning environments
- Immersion into regular school classes, fostering the acquisition of social and academic language
- Individualized attention and personalized programming assistance
- Relaxed and safe lifestyle
- EAL classes
- Small class sizes
- Rewarding and diverse cultural and extra-curricular activities, available through the school and community
- Healthy living environment with an abundance of pristine lakes, parks, and open prairie
- Four distinct seasons with a sunny climate
- Graduate with a Manitoba High School Diploma
